36) Doppler shift at 150 Km/h

velocity = 150 Km/h, carrier frequency = 1.8 GHz

$$v = \frac{150}{3.6} = 41.67 \text{ m/s}$$

$$f_d = \frac{41.67 \times 1.8 \times 10^9}{3 \times 10^8}$$

$$= 250 \text{ Hz}$$
